I personally would utilise Gareth in the recruitment of top quality Managers/Engineers. Within the NHS, experienced Senior Engineers are extremely rare to find but Gareth has a vast network of resources to tap into and will not simply fill the post but will find the 'right' person!

Gareth is a truly rare find in the world of professional recruitment.

Having matched my skills and experience to an ideal role, Gareth provided an excellent level of service to my employer, ensuring that all necessary paper work was completed and provided in a timely manner. Gareth also went out of his way to ensure that I had everything I needed prior to the start my new assignment.

Speaking as a contractor, it's very important to be represented by a credible agent who can be relied upon to provide a professional service to you and prospective employers. I have no hesitation whatsoever in recommending Gareth to anyone looking to be represented and supported to the very highest of recruitment agency standards.
